Pittsburgh, PA 15219

SUBJECT: INDEPENDENT AUDITOR'S REPORT
ALLEGHENY COUNTY HEALTH DEPARTMENT
TITLE V AIR QUALITY FUND
FOR THE YEAR ENDED DECEMBER 31, 2020

Dear Dr. Bogen:

Report on the Financial Statements

We have audited the accompanying financial statements of the Title V Air Quality Fund of the Allegheny County Health Department as of and for the year ended December 31, 2020.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Dr. Debra L. Bogen
September 2, 2021

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Title V Air Quality Fund of the Allegheny County Health Department as of December 31, 2020, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Dr. Debra L. Bogen
September 2, 2021

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 2, 2021, on our consideration of the Allegheny County Health Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Allegheny County Health Department's internal control over financial reporting and compliance.

Kind regards,

Chelsa Wagner
Controller

Lori A. Churilla

ALLEGHENY COUNTY HEALTH DEPARTMENT
TITLE V AIR QUALITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2020

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Reporting Entity:

The Allegheny County Title V Air Quality Fund (the Fund) was established in February 1994 under the major operating permit program for the deposit of all emission fees, related interest and other fees required by Title V of the Clean Air Act. The fees and related interest collected can only be used to fund the costs of developing and administering a pollution control program in accordance with Title V of the Clean Air Act. Fund transactions are accounted for in a separate special revenue fund, since the revenues are legally restricted to expenditures in connection with these specified purposes.

The accompanying financial statements include only the assets and deferred outflows of resources, liabilities and deferred inflows of resources, fund balance, revenues, and expenditures of the Fund and are not intended to present the financial position or results of operations of Allegheny County taken as a whole.

Basis of Accounting:

The Fund's accounting records are maintained and the accompanying financial statements have been prepared on the modified accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they become measurable and available. For measurement purposes, available means expected to be collected within 90 days of the balance sheet date. Expenditures are recorded when a liability is incurred.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 2 **DEPOSITS AND INVESTMENTS**

Pennsylvania statutes provide for investment of governmental funds into certain authorized investments. The statutes also allow pooling of governmental funds for investment purposes. Allegheny County (“County”) pools its funds for investment purposes, and the cash in the Title V Air Quality Fund represents a portion of those pooled funds. The County Board of Investment has adopted an investment policy that adheres to state statutes and further limits permitted investment types and procedures. This policy was last revised January 2019. The primary objectives, in priority order, of the Board’s investment activities are safety of principal, liquidity, and return on investment.

The County Treasurer is authorized by the County Board of Investment to invest in U.S. Treasury Obligations, directly issued U.S. Federal Agency securities, repurchase agreements, deposit accounts, obligations of the Commonwealth of Pennsylvania, shares of investment companies (mutual funds), certificates of deposit, commercial paper, Pennsylvania Local Government Investment Trust (PLGIT), and INVEST. INVEST is a government pool established by the State Treasurer exclusively for investment by Pennsylvania municipalities.

The County’s cash deposits are subject to custodial credit risk. Custodial credit risk is the risk that, in the event of a bank failure, an entity’s deposits may not be returned to it. The County’s investment policy mitigates custodial credit risk by requiring collateralization of uninsured balances of certain investments, including certificates of deposit, savings accounts, time deposits, checking with interest accounts, and repurchase agreements. The County’s investment policy limits collateral to U.S. Treasury Obligations and U.S. Government Agency investments. The policy requires a collateralization level of 102% of the market value of principal and accrued interest and that collateralization be pledged in accordance with Act 72 of the Pennsylvania State Legislature, Section 3836-1 through Section 3836-6. Act 72 requires a financial institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution’s name.

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

The County’s investments are subject to credit risk, custodial credit risk, concentrations of credit risk, and interest rate risk. The County’s investment policy minimizes credit risk by permitting only certain types of investments and establishing minimum quality levels for the riskier investments. With respect to custodial credit risk, the County’s safekeeping and custody policy minimally requires that all security transactions be conducted within the confines of Act 72. Direct security transactions must be on a delivery versus payment basis. All securities are to be held in the Treasurer’s name. If a counterparty is used, the counterparty must send written confirmation of the transaction to the Treasurer. According to the County’s investment policy, diversification will prevent over concentration in a sector and minimize the opportunity for risky investments. With the exception of U.S. Treasury securities, no more than 55% of the County’s total investment portfolio will be invested in a single security type or with a single financial institution. To minimize interest rate risk, the County’s investment policy limits investment maturities to a maximum of 13 months from the date of purchase, unless matching reserve funds to a specific cash flow. An exception to this rule is repurchase agreements which should be collateralized with maturities up to 20 years. Reserve funds may be invested in securities exceeding five years if the maturity of such investments reasonably coincides with the expected use of the funds.

NOTE 3 RECEIVABLES

Emissions fees are billed and collected in the year following the year in which the emissions occur. As a result, emissions fees for 2020 are not measurable and available at year-end, and therefore cannot be recorded as revenues under the modified accrual basis of accounting. Emissions fees are considered fully collectible by management and therefore no allowance for doubtful collections is deemed necessary. Emissions fees receivable at December 31, 2020 consist of the following:

US Steel Clairton Works	\$	403,557
US Steel Edgar Thompson Works		163,590
Genon Midwest LP Cheswick		148,288
US Steel Irvin Plant		99,792
Others under \$50,000		150,844
Total	\$	<u>966,071</u>

ALLEGHENY COUNTY HEALTH DEPARTMENT
TITLE V AIR QUALITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2020

NOTE 4 **INTERFUND BALANCES**

The amount due from other funds at December 31, 2020, \$1,001,809, consists of:

- \$926,900 due from the Air Pollution Control Fund attributable to salary and fringe benefit cross-charges,
- \$63,700 due from the 2019/2022 PM 2.5 Fund attributable to salary and fringe benefit cross-charges,
- \$9,668 due from the General Fund, of which \$1,446 represents the Title V Air Quality Fund's share of 2020 County investment pool earnings that were not credited to the Fund as of December 31, 2020, and \$8,222 represents the Fund's share of a favorable variance in incurred but not reported health insurance claims for 2020, and
- \$1,541 due from the CARES Act Primary Fund attributable to unemployment compensation and Family First Coronavirus Relief Act payments.

The amount due to other funds at December 31, 2020, \$21,863, is due to the General Fund and is attributable to healthcare costs allocable to the Fund that were paid by the General Fund.

NOTE 5 **RESTRICTED FUND BALANCE**

The fund balance of the Allegheny County Health Department Title V Air Quality Fund is restricted for air quality permitting program expenditures as stipulated in Title V of the Clean Air Act and *Allegheny County Health Department Rules and Regulations, Article XXI Air Pollution Control Manual*.

NOTE 6 **OPERATING TRANSFER IN**

The amount of \$45,449 was transferred into the Title V Air Quality Fund from the Clean Air Project Fund during 2020 to subsidize a portion of the Air Quality Program's 2020 costs.
