Release Statistics

Total releases: 773

New releases from the jail by month

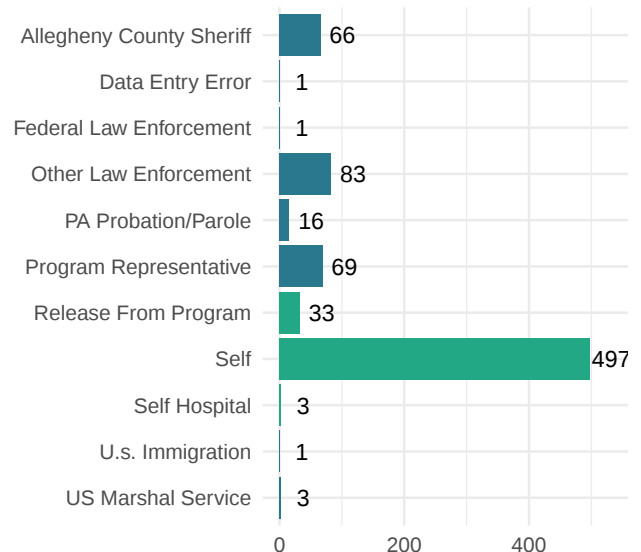

Average release time: 20.8 hours

The average release time concerns people released into their own custody who went through the Discharge and Release Center process. The time to release calculation begins when a clerk initiates the DRC workflow and ends when the person is released from the jail.

In July 2024, there were **773 releases from the jail** — 533 of which involved **people released into their own custody** (other types include releases to rehabilitation programs or other law enforcement agencies). There were 101 cases during July in which there was not a DRC workflow initiated between the person's commitment date and release date. This may happen if someone is released from alternative housing or under pre-trial electronic monitoring. All such cases have been excluded from this analysis.

July releases by custody
