Release Statistics

Total releases: 790

Average release time: 18.8 hours

The average release time concerns people released into their own custody who went through the Discharge and Release Center process. The time to release calculation begins when a clerk initiates the DRC workflow and ends when the person is released from the jail.

In August 2024, there were **790 releases from the jail** — **517** of which involved **people released into their own custody** (other types include releases to rehabilitation programs or other law enforcement agencies). There were 84 cases during August in which there was not a DRC workflow initiated between the person's commitment date and release date. This may happen if someone is released from alternative housing or under pre-trial electronic monitoring. All such cases have been excluded from this analysis.

August releases by custody

Self means the person was released into their own custody rather than that of another entity.
