Release Statistics

Total releases: 723

In September 2024, there were **723 releases from the jail** — **444** of which involved **people released into their own custody** (other types include releases to rehabilitation programs or other law enforcement agencies). There were 65 cases during September in which there was not a DRC workflow initiated between the person's commitment date and release date. This may happen if someone is released from alternative housing or under pre-trial electronic monitoring. All such cases have been excluded from this analysis.
