Organization(s): Former inmate at ACJ

Comment : I've been incarcerated many times at the ACJ, and I would like to come and give a idea of typical days while in the jail. I want to tell you how we are treated. Also can we get body cams on the officers? I think that would really help

Comment : Who monitors and ensures that the Community Corrections Programs, such as Renewal, Pathways to Recovery, or any other providers, properly support the participants in those programs? Including but not limited to: 1. ensuring that the staff in those programs adhere to the guidelines outlined in the policies and procedures outlined in the handbooks provided to the participants; 2. Participants receive proper medical care, including mental healthcare and medication management. 3. participants are allotted the proper access to the grievance process rather than just being removed from the program 4. Participants have the proper support to ensure timely approval of appointments, employment schedules, and other required time out of the facility.

Comment : I am a survivor of domestic violence. My husband, John Mowod is in ACJ since 11/2022. This is not my 1st email to you all and will not be my last as I am trying to make corners for the victims of domestic violence. he tried to kill my by stabbing me multiple times in our home with our to children their. They

were the ones egg broke the door down and stopped the attempted homicide. Our youngest, who at the time was 16 and picked my stab wounds, has had to give up so much, including lacrosse, a sport she played since 1st grade and we can't afford it anymore. You're giving inmates \$125/mo. That income should go to his daughter for child support since the dhs will not pursue support for her. She hasn't had insurance and is very sick.

Comment : Part 2. You want to give them commissary because they are hungry, drinking water because they drink from faucets, better healthcare...when do the victims of their crimes get any consideration? His daughter eats ramen noodles some nights, only drinks from the faucet because bottled water is no longer an option, and she cannot have the sonogram on her abdomen or see the GI Dr because I cannot afford the 70\$/ mo for chip healthcare that she needs. It is very difficult for the victims of these criminals to watch what they "need" and get without hesitation while the victims have to suffer in silence. If they don't want to be separated from their family...DO NOT COMMIT THE CRIMES! If they can't afford to call home, be better and don't go to jail.

Comment : Think of the people outside suffering because of their lack of control, their sociopathic narcissistic tendencies and how it is affecting these children. They don't all deserve the funds, the list of freedoms and privileges that you are sitting on this board arguing for. Some of them are just evil. I keep teaching my kids to be better in spite of what he has done but these decisions to give him money to buy paper to write letters they don't want or phone calls that shake them to the core and go unanswered...and nothing can be done to stop him, except maybe my email begging you to stop the 125\$/month that contributes to their nightmares and torture...I will continue to implore you to end this fund and spend it on their victims!!!
