Organization(s): I am an Official Visitor for the Pennsylvania Prison Society, though I don't currently visit ACJ.

Comment : I am writing to request that county officials and JOB members do everything in their power to respect the will of county voters and prevent the return of restraint chairs to the jail. Restraint chairs are dangerous and do not promote deescalation of conflict. Corrections officers might find it easier to restrain an uncooperative person than to work with them to address the issues they are facing, but it does nothing to improve their mental state. Most importantly, the use of restraint chairs does not contribute to the kind culture of care and humanity at the jail that we should all be working toward. Thank you very much.

Name : Rebecca Williams

Organization(s): Jail food

Comment : Hi my cousin is in acj Seth Williams and I am concerned about the food that is being served because it is making everyone sick and they deserve to have a decent meal in that jail and it's definitely inhumane to be feeding people crap.
