Total releases: 605

### New releases from the jail by month

The average release time concerns people released into their own custody who went through the Discharge and Release Center process. The time to release calculation begins when a clerk initiates the DRC workflow and ends when the person is released from the jail.

In January 2026, there were **605 releases from the jail** — **384** of which involved **people released into their own custody** (other types include releases to rehabilitation programs or other law enforcement agencies). There were 78 cases during January in which there was not a DRC workflow initiated between the person's commitment date and release date. This may happen if someone is released from alternative housing or under pre-trial electronic monitoring. All such cases have been excluded from this analysis.
