Comment : My son [REDACTED] , Doc [REDACTED] cell [REDACTED] . Has been incarcerated for the past 10 mos at ACJ. As the mother of this inmate ,my concerns has heightened. Due to recurring medical issues massive infections mon. [REDACTED] has been taking to the Emergency room to 2 different hospital facilities 3 times with swollen legs, ankles and thighs. Prior to being arrested he had under gone 2 back surgeries and required physical therapy. The direct verbal communication with my son,regarding his medical issues have not been adequately addressed from the infirmary or the facility. He has been admitted 2 of the 3 times taken to the hospital. It appears the lower infection continues to reoccur each month. As I continue to call atty, jail no help.
