Comment : I am writing regarding the family notification policy. While I have been unavailable to attend in person, I continue to watch the meetings monthly. I am truly appalled that the board voted down the motion in May. This is inhumane, and every person on the board knows this. You pushed this off for MONTHS, and then allowed the words of a Sheriff (who has historically shown that he doesn't care what happens to people in ACJ) to convince you to vote it down because of a "security issue". If Sheriff Kraus actually looked at this situation appropriately, he would know that hospitals have their own security protocols to ensure safety. Too many people are dying in jail NOT to have a written policy. What are we actually doing here?!?!?!
