Organization(s): ACPEIU

Comment : This oversight board seems to be against the "Correction" part of a correctional facility. There can be no rehabilitation without accountability. If inmates are not held accountable for their actions while in jail, what hope do they have when they are released? Being in jail is SUPPOSED to teach them personal responsibility and accountability. These concepts are lost among Bethany and her cronies.

Organization(s): Actup

Comment : We ask that all inmates be screened for HIV using the newest screening as per allies. For health and well-being or central outreach and results addressed accordingly. Testers should be reimbursed appropriately. Thank you for your understanding

Organization(s): Act Up

Comment : ACT UP has confirmed with Jail Staff that everyone at ACJ is only offered an HIV test once upon arrival. This is not enough to prevent the spread of HIV and to make sure anyone who needs it gets care. ACT UP demands that ACJ work with community partners to offer weekly testing at the jail.

Organization(s): ACPEIU

Comment : As a concerned taxpayer, I would like to know the amount of money spent on hospital runs and medication (including suboxone and methadone) for the inmates. seems to me that there are more hospital runs now than there have ever been. We could probably save money by eliminating some medical staff if they aren't able to do anything but send inmates out. Seems ridiculous that a broken finger, among other things, cannot be treated at the jail.

Organization(s): A.C.J. Correction Officer

Comment : Safety in this building is deeply concerning for those of us who work there. You can feel the tensions on the units. More officers getting assaulted than ever before. More inmates assaulting other inmates than ever before. The officers on the units have no power or control anymore being micromanaged by civilians and handcuffed by staff who are disconnected from what is going on and restricted actions being taken from us. How can we maintain order in the building when only officers are being punished for the actions of the inmates? There is very little deterrence to violent actions in this building anymore. RHU and DTU could barely be seen as a deterrent. After assaulting inmates and staff inmates get sent to DTU to play bingo. Please Help.

Comment : Bethany, Do you think you could quit going on radio shows and spreading falsehoods about the jail and its employees? Due to the actions of a small few, you want to lump everyone into the same group. I get it- you hate us. That's obvious by your past retweets of "[REDACTED] the ACJ", and your "FTP" ([REDACTED] the Police) tattoo. I find it laughable that you and Nasir have anything at all to do with this board since you lack the integrity and professionalism to do it properly. Also, since the inmates get paid, I hope they will be paying taxes with the way Sarah keeps raising them. On a final note, I think the green uniforms actually increased the violence. Maybe the uniforms were only changed because a supposed Crip doesn't like the color red.
