Comment : Why are the inmates still being paid to come to jail ?? this was started during co-vid, when everything was locked down and people couldn't come to deposit money to their loved ones. all inmates are being paid $100 a month regardless of if they have people to give them money. There are a lot of inmates who have several hundreds or a thousand plus dollars on their accounts. It was also recently started that inmate workers and program attendees (even though some programs are court ordered classes) get paid daily, so again why do ALL inmates get paid ?? Just seems like a waste of money to me

Comment : My question is for the Sheriff's department there was such an issue with transportation over the Summer. It is believed by the community Cheif Deputy Richard Manning and other Sheriff's travel/ work as part-time security for the Pittsburgh Steelers and in 2025 they traveled to (Dublin) Ireland and possibly 2026 will also travel to Paris? Is the board able to see how this is funded, are the tax payers funding this for their families to travel also, sounds like a possible long time ethics issue, with the Sheriff's department and/or other county.
